**Stonebrooke**  
Engineering Responsible Solutions™

Since 2003 Stonebrooke Engineering has provided planning, design, surveying and construction services to clients such as MnDOT and numerous counties, cities and local agencies and has been relentless in pursuit of its mission of developing and advocating for the right project solution for their clients and the public.

Today, Stonebrooke is recognized as one of the fastest-growing private companies in the nation, as well as one of Zweig Group's 2017 "Best Firms to Work For," and is a leading consulting engineer in the transportation industry. You can learn more about Stonebrooke at:
