WIDSETH
SMITH
NOLTING

Founded as an engineering consulting firm in 1975 by Richard Widseth, Howard Smith, and Donald Nolting in Crookston, MN, WSN has been involved in the design of roads, bridges, water and wastewater systems, and buildings of all types over the course of its history.

Since its founding, Widseth Smith Nolting has transformed into a multi-disciplined company with nearly 200 employees, yet remains a leading consulting engineer for the transportation industry.
