

THE TRANSPORTATION ALLIANCE

Honoring The Past, Embracing The Future

1893

125 ANNIVERSARY

2018

Hawkinson

Sand & Gravel

An alliance is all about the members involved. In commemoration of our 125th anniversary, we are celebrating those who have been apart of our story. Thanks to our member, Hawkinson Construction Company, who has been a major part of our story since 1958.

In the 1930's, the Ashworth-Hawkinson Company began a road building operation in St.Louis Park, MN. In the late 1940's the Ashworth-Hawkinson partnership split, and in 1948 Hawkinson CONstruction Company was formed as a partnership between Clarence and his son Mike Hawkinson, as well as their wives, Evelyn and Sair. The company based its operations out of Grand Rapids, and over the next few decades, established itself as a leading road contractor, specializing in gravel surfacing and hot mix asphalt.

In 1986, Mark Hawkinson became president and began the third and current generation of Hawkinson family ownership. Today, Hawkinson Construction Company is a leading contractor for the transportation industry.
